

**MATERIALS**

Construction is of polyurethane foam injection moulded over steel springs which are supported by a metal frame. This gives consistent shape quality and structural longevity. Upholstery is in a wide choice of premium fabrics, leather, vinyl or COM. Stainless steel legs.

Leg type and material: Stainless steel 20x40mm rectangular section profile is used for making a closed frame leg. All parts are cut in 45° angled and welded each other and cleaned by thin sandpaper. Brushed mat finishing surface.

Dimensions: Single 82x84x60h / Double 166x84x60h / Triple 234x84x60h
